PROFESSIONAL SUMMARY

Motivated Computer Science and Business Systems student with hands-on project experience in Python, facial recognition, and blockchain technology. Passionate about software development, frontend development, cloud computing, and business analytics. Eager to apply technical skills and innovative thinking to build efficient, scalable, and user-friendly solutions in a professional environment.

EDUCATION

Bachelor of Engineering – Computer Science and Business Systems

Malnad College of Engineering | 2023 – 2027 | CGPA: 7.3 / 10

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript

Web Technologies: HTML, CSS, JavaScript

Databases: SQL, Database Management

Concepts: Data Structures & Algorithms, Cloud & AI Fundamentals, Machine Learning

Tools: MS Excel, MS PowerPoint, Git/GitHub

PROFESSIONAL SKILLS

Business Communication • Problem Solving • Team Collaboration • Leadership & Coordination • Analytical Thinking • Time Management • Customer Relationship Management

ACADEMIC PROJECTS

Smart Attendance System | *Python, Face Recognition, Database Management*

Developed a smart attendance management system that automates tracking using facial recognition for accurate and efficient record management.

- Improved attendance accuracy and reduced manual effort significantly
- Implemented secure storage of attendance records with database management

Emo-Therm Secure Chain | *Python, Blockchain, Machine Learning, Thermal Image Processing*

Developed a secure framework for encrypting and managing emotional thermal images using blockchain technology to ensure data privacy and controlled access.

- Integrated blockchain-based security with thermal image analysis
- Enhanced data privacy protection for sensitive emotional datasets

ACHIEVEMENTS & CERTIFICATIONS

EY Techathon 6.0 — Advanced to Round 2 out of a competitive national pool of participants

- Certificate of Participation – Round 1: Exclusive Summary Submission, EY Techathon 6.0
- Certificate of Participation – Round 2: Detailed Presentation Submission, EY Techathon 6.0

EXTRACURRICULAR ACTIVITIES

- Event Coordination – organized and managed technical and non-technical college events
- Team Management – led collaborative activities and group projects
- Volunteer Work – participated in community and campus service initiatives
